Senator Carlisle Will Go Into the Cabinet.

AGAINST THE HOUSE OF LORDS

SENATOR CARLISLE'S RESIGNATION. It Will Be Sent in on His Return to Wash

CINCINNATI, OHIO, Jan. 14.—Senator Carlisle, while visiting at his former home in Covington, Ky., talked freely about his acceptance of the office of Secretary of the Treasury. He said it was important that his successor should be elected in time to take his seat March 4, and that he would mail his resignation after he returned to Washington.

BEATEN STRIKERS SEEK VENGEANCE But, if you go on losing for some time or less agood Another Dynamite Explosion in the Prus sian Mining District.

deal in a short time, you are running down. Is that a . Braken, Jan. 14.—It is evident that the law less element among the coal miners are deter mined to revenge themselves for the dis charge of so many of the men who too Get back to your healthy weight and generally you an active part in the mining district. To day a terrific explosion occurred in th Consolidation Colliery at Celsenkirchen, an after the excitement had subsided it was foun

> vicinity of the explosion and no one was killed A number of miners were, however, thrown violently down by the concussion. Immense timbers and hugh masses of rock

were blown out of place, and some of the gal-leries were completely blocked. Great indignation is expressed that the authors of the outrage should have risked the lives of hundreds of men for the sake of revenging themselves against the mine owners. Every day sees a decrease among the men who went on strike. All hope of success has been abandoned, and it is expected that in a

short time all the men whom it is intended shall be re-employed will be at work. CLOUDS CLEAR AWAY.

The Situation in Paris Improved by Recent Developments.

Paris, Jan. 14.-There is profound relief in republican circles today over the statement Von haven't any idea her convenient a Channe Pish is. IN WALL STREET TODAY.

Despite a Favorable Bank Statement Prices Yielded to Bear Attacks. NEW YORK, Jan. 14.-The stock market

opened with great activity and excitement this morning, the usual bear drive at distillers, as well as at the liquidation natural after the sustained rise of the past few days, neutralizing for some time the effect of the urgent buying demand which has been the feature of the past few days. First prices were generally fractionally higher sell forced fractional concessions in all parts of the list, but only in three or four stocks were the fluctuations of any importance.

Distillers yielded rather more easily than for the past two days to the drive against it at the opening and a loss of four points was quickly established, 54 being the lowest quotation. At the same time some selling of Manhattan drove it down to 171 against 174 yesterday, while Louisville, New bany and Chicago rose I per cent. Consolidated gas showed some wide fluctuations, but

no decided tendency.

The demand soon changed the temper of the speculation and distillers rallied about 2 per cent, while Manhattan was brought up within a small fraction of yesterday' best price. New Engl.nd, St. Paul, Western Union and Reading were prominent for activity and all rose small fractions in unison with the general list. At 11 o'clock the market was active and strong at the improve-

The market remained extremely active after 11 o'clock, but despite an excellent bank statement, showing an actual gain in cash of over \$8,000,000, the realizing pressure gradually forced prices off slightly. There was no special movement in the market of note except in Manhattan, which gradually dropped away below 170, and distillers again lost its rally. The market finally closed active and, while

of the republic have claimed from the beginning of the scandal, that republican officials and journalists did not have a monopoly of Panama corruption.

The fact that four Boulangist deputies are said to be put under strong suspicion by evidence before M. Franqueville is also considered as strengthing the cause of the republic, by showing the hypocrisy of those who assail it in the pretended interest of better government.

The government has also been considerably strengthened by the speech of Chancellor Von Caprivi on the army bill. This has in a large degree diverted attention from Panama affairs and sroused a deeper interest in the foreign concerns of France and in the necessity of Frenchmen standing together against their enemies abroad.

The situation today is therefore improved, and although the Figuro publishes a sensational article signed by the editor-in-chief, M. Magnard, urging Carnot in the interest of the republic to resign, very little is heard of adsets. THE INAUGURATION PARADE.

Gen. McMahon Appoints His Chief Aids— The Civic Procession. Gen. Martin T. McMahon of New York who

is to be the chief marshal of the inacgural parade was at the executive committee headquarters for several hours today discussing plans and disposing of a considerable amount of preliminary business.

This morning Gen. McMahon announced the appointment of Col. H. C. Corbin, U. S. A., as his adjutant general and Gen. W. D. Whipple, U. S. A., as his chief of staff. Mr. Wm. Dickson,

the chairman of the committee on civic organ-ization, was also appointed chief marshal of the civic parade and Mr. Richard Croker of New York will be placed at the head of all the organizations from the empire state with the title of marshal of division. His division will head the civic line, and it is understood that he has already expressed his intention of accepting the appointment.

Early next week Gen. McMahon will issue his

first formal order, taking command of the parade and publishing his appointments. The list of aids for the parade will not be made out for some time yet, as this is a matter of detail that requires a good deal of close attention and care and cannot be done in a hurry. THE VIRGINIA CAVALRY.
RICHMOND, Jan. 14.—Gov. McKinney has written to Gen. Martin T. McMahon of New

the inaugural parade, a strong letter asking that the Virginia cavalry be made the special escort to Mr. Cleveland. A petition signed by the Virginia Congressmen accompanied the letter. THE SATURDAY HALF HOLIDAY.

Nearly All the Banking Institutions in

York, who has the placing of organizations for

Favor of Closing. A denial was given today to the statement made that the Saturday half boliday is not desired by the banks of the city, but only by the bank clerks. When a memorial was presented to Chairman Hemphill this paper was signed by all the banks and the banking institutions in the city with the exception of the Ohio National Bank and the Capital National Bank. The officers of the latter institution are n sympathy with the views expressed in the memorial, but not having explicit authority to sign withhold the signature of the bank for the present.

The memorial says the signers desire that the amended bill now pending before Mr.

Hemphill's committee may be passed addly in

NICARAGUA CANAL.

Much Has Been Expended.

MORGAN'S SPEECH ON HIS RESOLUTIONS

The Monroe Doctrine Rather Roughly Handled.

BUSINESS IN THE HOUSE

Definite Action.

SENATE.

the states of Oregon and South Dakets were ernor of Louisiana to fill the vacancy caused introduced by his colleague, Mr. White, and

took the oath of office.

A communication from the Secretary of the Treasury in reference to the control, firmiture, assignment of rooms, &c., in public buildings for custom house, court and post office purposes, vesting the same expressly and fully in the Secretary of the Treasury, was presented and referred to the committee on public buildings and grounds. THE NICARAGUAN CANAL.

Mr. Wolcott (Col.) offered a resolution instructing the committee on foreign relations to inquire what sums have been expended in and about the construction of the Nicaragua canal since the accounts of expenditure heretofore rendered. He remarked that two years ago testimony

was taken by the committee on foreign relations which showed that up to that time about \$3,000,000 had been expended, but it was now proposed to give to the company \$6,000,000 in bonds guaranteed by the government and \$12,000,000 of stock. He did not suppose that it would be seriously contended that any approach it. contended that any such expenditures had been made by the company within the last two years, and the purpose of his reason was to ascertain what the actual expenditures had Mr. Sherman (Ohio), chairman of the com-

mittee on foreign relations, said that he had no objection to the resolutions. Two years ago. he said, the company had expended \$3,000,000 and had since then expended considerably more, but not as much as \$6,000,000, but the amount actually expended was to be ascertained by the Secretary of the Treasury and the Secretary of State and the maximum to be turned over to the company in guaranteed bonds was not to exceed \$6,000,000. Mr. Hoar said that recent experiences in an-

other country and the experiences in this country in relation to the trans-continental railroads made it very important that the committee on foreign relations and Congress should see to it that in the construction of the Nicaragua canal daylight should be constantly turned in on every transaction. It was a matter on which the good name of the country and the pure and upright expenditure of public moneys were very much concerned. The resolution was, at the suggestion of Mr. Morgan, laid over till Monday.

MR. MORGAN'S RESOLUTION. The resolution offered yesterday by Mr. Morgan (Ala.), instructing the committee on commesce to inquire and report the advantages, if any, that would accrue to the productions, industries, coastwise and foreign commerce, immigration and other interests of the United States by means of additional facil-ities of transportation and the cost of production thereof that would be afforded by the Nicaraguan ship canal was taken up and Mr. Morgan addressed the Senate upon it.

AS TO THE MORMON DOCTRINE. In the course of his argument Mr. Morgan said that logically the government of Great
Britain had just as much right as the government of the United States had to charter the
canal company and to take the control of it
which it was proposed that the United States

Maj. Moore, it seems, started the ball to rolling. For years he has been protesting against
the crowded and uncomfortable quarters which
he occupies. and Lieut. Hollinberger
recently called the attention of the Commissioners to the unsanitary condition of the deshould take. Nobody could deny that. And, tective quarters. The health officer has also if Costa Rica and Nicaragua were to been grumbling about his quarters and the if Costa Rica and Nicaragua were to tender such an overture to Great Britain or if the owners of the concessions were to take it to the parliament of Great Britain and Great Britain should accept the offer the United States would have but one pairry plea (he would not call it pairry)—one emasculated piea—and that was the worn and torn and fragmentary Monroe doctrine, which the Senate of the United States had succeeded in kicking literally

into doll rags. ME. SHERMAN'S SUGGESTIONS

Mr. Sherman asked Mr. Morgan to notice the objection made in some quarters that the owners of the twelve millions of stock of the company would have an undue influence in the management of the corporation.

Mr. Morgan replied that in the pending bill the power of the government was reserved in control of the operations of the company. The government was to own eighty and one-half millions of the 100,000,000 of stock and would, therefore, have control, so far as the direction

option bill was entitled to consideration, but Mr. Wolcott (in opposition to that measure) moved to proceed to the consideration of the first bill on the calendar. The Senate then went into executive session

HOUSE

In the morning hour the House resumed the consideration of the bill to promote the efficiency of the militia.

The morning hour expired without action on the measure, which resumed its place upon the The floor was then accorded to the com on Indian affairs. The first bill called up was one appropriating \$8,595,000 to ratify and confirm an agreement with the Cherokee Nation. The agreement for which this ap-propriation is a consideration provides for the cession by the Cherokee Indians of the Cherocession by the Cherokee Indians of the Cherokee outlet, which contains about 8,000,000

CAPITOL TOPICS.

SENATOR HILL'S LOCAL BILL. Senator Hill has introduced a bill granting right of way through the United States light house reservation. New Brighton, N. Y., to the Electric Power Sand and Railroad Company. BUOYING CHICAGO HARBOR.

Senator Frye has introduced a bill appropriating \$29,500 for the purpose of establishing proper buoyage on the water front of Chicago. TWO MILLIONS POR THE COMANCHES. Senator Dawes has introduced a bill to ratify and confirm an agreement with the Comanche Kiowa and Apache tribes of Indians in Okia

home and appropriating \$2,000,000 therefor. MILITARY DEFICIENCY ESTIMATES. The Secretary of the Treasury today submitted to Congress the deficiency estimates for the District militia, prepared by Gen. Ordway and heretofore transmitted to the District Commissioners. The deficiences aggregates \$11,496.10 and comprise the fiscal years 1888, 1891, 1892 and 1893.

FRAUDS IN TRADE MARKS, Mr. Hickman P. Rodgers of St. Louis appeared before the Senate committee on patents vesterday by invitation of Senator Dixon chairman, in the interest of the trade mark bills pending. Mr. Rodgers has been for sev-eral years gathering information concerning violations of rights conferred by registered trade marks, and demonstrated to the gentlemen of the committee that on account of a technical defect in the United States statutes a practice of substituting sourious and counterfeit artidefect in the United States statutes a practice of substituting spurious and counterfeit articles for trade mark goods, imitating brands, labels, &c., has become prevalent among retail dealers of soaps, tobaccos, wines, foods sold in packages and medicinal preparations, not only injuring the reputation of the manufacturer, but deceiving the public. He had with him samples of substitutes sold for well-known proprietary remedies, which made manifest the fact that human life is often endangered by the fraudulent imitations of trade marks, and mentioned the incident of a Philadelphia firm of chemists who sent out twenty prescriptions for their two-grain quinine pills to as many different druggists and found that in thirteen instances spurious goods were substituted, some containing but one grain and others no quinine at all.

He Passed a Restless Night Under the Con-

resolution reciting the newspaper charge that the whisky trust is making spirits, high wines and alcohol for use as beverages by the use of adulterants; that the trust is in a conspiracy with the rectifiers to that end; that the adulteration is effected by the use of poisonous drugs, of which fact the retailers and consumers are in ignorance; that the spirit of the rectifiers' law is thus violated; that the United States revenues are thus defrauded by the diminution of importations; that the rectifiers are oblized to importations; that the rectifiers are obliged to consume only the product of the trust under heavy penalties; that the contracts are in re-straint of commerce between the states; where-fore, it is resolved that a special committee of five members of the House be appointed to fully investigate and report upon the subject, and especially what persons are connected with

the trust.

It is said that an investigation is liable to uncover a big scandal, involving a lobby about they were told that Mr. Blaine was "about the District. The full committee unanimously TO PERMIT BAILBOAD POOLING.

The subcommittee charged by the House commerce committee with an inquiry into the advisability of amending the interstate commerce law so as to permit pooling have agreed upon a bili which in its opinion is entirely safe and fair to all concerned. It will be reported to the full committee by Messrs. Patterson of Tennessee and Storer of Ohio, its framers, at a The presidential electoral certificates from bill is more guarded in its provisions than the Senate bill and has the approval of the inter-Senate bill and has the approval of the inter-state commerce commission and of influential railway men. It provides that pooling shall continue to be unlawful, but may be permitted on such terms as the commission may approve, whenever in its judgment pooling would be to the interests of the public. If the commission find that its approval should be withdrawn it may do so after ressonable notice and pooling shall then again become unlawful.

DISTRICT IN CONGRESS.

TO EXTEND THIRTY-SEVENTH STREET Mr. McMillan intro uced in the Senate today an amendment proposed to the District appro priation bill providing an appropriation of ten thousand dollars for the purpose of condemning or purchasing the ground needed to extend and open 37th street between Bach street and Tenleytown road at or near Schnied-

Its Annual Report Submitted to Congress by Its President Today. The president of the Anacostia and Potoms River railroad today submitted to the House s list of stockholders of that road and a statement of receipts and expenditures during the year ending December 31. The figures were as follows:

494.91 LOOKING FOR A NEW BUILDING.

The Police Department, the Health Office and Other Offices te Be Under One Roof. There will shortly be a grand family reunion of the police department, the health office, the street sweeping department and the District fire and telephone service. The Commissioners have decided that these children of the District government have been living apart long enough. and if the present plans are carried out these important branches of the city government will

all be in one building like a happy family. graph service has been recommending that suitable quarters be provided for some time past, and this quartet when they kick together

make a very determined effort.

So the Commissioners decided to remedy matters if they could. They thought that with the combined rents now paid for the several buildings which are now occupied by these departments a suitable building could be obtained and the service materially strengthened.
To carry out this idea a committee composed of the major of police, the inspector of build-ings and the health officer was appointed to

look about the city ond report upon a sui building. The committee is now at work. DISTRICT GOVERNMENT.

THE BLOCKADED COLUMBIA ROAD. In reply to the complaint of G. Brown Goode of the company was concerned.

Mr. Morgan spoke till 2:15 and then the antias to the impassable condition of Columbia street, which makes the Zoological Park practically impassable to pedestrians, Supt. A. H. S. Davis of the street cleaning Department, to whom the matter was referred for report, says that his department has neither the men nor the money to perform the work required, even if the locality were within its jurisdiction.

WATER FOR THE GIRL'S REFORM SCHOOL. Some days ago the Commissioners requested permission of the War Department to construct a line of poles for electric wires from the Canal War submits the reply of Col. Elliot to whom the matter was referred for to whom the matter was referred for report. He says there is no objection to granting the requests provided the wire shall pass underground from the lower side of the road to the upper side of the fence on the upper side of the road Itelative to the water service, he says there is no objection to that provided the pump house is of good architectural design and that in case steam is used a high fence be provided to guard against accidents from Fright. that in case steam is used a high fence be pro vided to guard against accidents from fright ened horses.

MR. COLLETTE'S COMPLAINT. Mr. John R. Collette of Hyattsville has written complaint to the Commissioners against the Baltimore and Ohio Railroad Company charging them with taxing education and maintaining a public nulsance in failing to provide suitable facilities for passengers to get to the trains.

In explanation of his charges he says that the railroad officials refused to issue a school ticket railroad officials refused to issue a school ticket to his son for the reason that he went to a business college thus making a discrimination. In his correspondence with the company's agent he says the regulation of ticket selling is governed by two circulars, one that the child is under eighteen years of age, and another that it attends school in Washington. He maintains that his son comes within the meaning of both circulars. In the other charge he says the gates at the depot which admits passengers to the trains was built fifty years ago and is altogether too small and should be widened.

AN ORNAMENTAL FENCE.

AN ORNAMENTAL PENCE. The Philadelphia. Wilmington and Baltimor Railroad Company has requested the Commissioners to grant them permission to erect an sioners to grant them permission to erect an ornamental fence between the main tracts of the navy yard station to facilitate the handling of passengers at that point. The fence is to be about four feet above the rails and extend from the parking line of 6th street southeast to the masonry at the end or the Washingion tunnel.

MR BLAINE WEAKER.

Mr. Blaine showed no apparent change in condition during the afternoon and evening. but during the night he lost more strength and was quite restless. The doctors made their afternoon visit yesterday at 2 o'clock and upon leaving they gave out the following bulletin:

"Mr. Blaine was not so strong yesterday, but so far today he has shown no unusual weakness and is in the same condition as for the past few davs. The callers at the residence last evening were few and those who were seen after their visits sides himself, submitted to the commit-

informed representatives of the press that see the report of the subcommittee which was Doctors Johnston and Hyatt called about 9

o'clock and remained with their patient about a quarter of an hour. When he left the house Dr. Johnston said that Mr. Blaine had been languid and weak during the day, but otherwise there was no change in his condition. Dr. Johnston returned at midnight and re-mained at the house until 6 o'clock this morn-This indicated that Mr. Blaine's condition

was again critical in the extreme, as his physi-cians invariably avoid staying with him whencians invariably avoid staying with him when-ever they consider it safe to do so.

Throughout the night there was no indication that Mr. Blaine underwent any change in con-dition, as to all appearances everything was quiet. Dr. Johnston left the house at 6 o'clock this morning. He said that Mr. Blaine was weaker and that he had passed a restless night.

AN UNEVENTFUL NIGHT. At no time during last night was the patient's condition considered critical, and the family were enabled to enjoy an uninterrupted rest. Except for the occasional movements of the nurses preparing medicine there was not a visible sign of life within the mansion. CONSTANTLY GROWING WEAKER.

Dr. Johnston after leaving the house this norning was asked the direct question whether he considered Mr. Blaine in a dying condition, but, evading an exact reply, said that he was constantly growing weaker. He intimated that while Mr. Blaine's condition was susceptible to the slightest changes he (the doctor) did not believe at that time that there was any immediate danger of dissolution. KEPT ALIVE BY STIMULANTS.

While more or less nourishment was given Mr. Blaine the physician admitted that he is living on stimulants, and several times his life has been recalled by the administration of nitro-glycerine, which in its results in this case has even surprised the physicians.

It was evident from the replies to the interrogatories of the reporter that Dr. Johnston was mystified at the wonderful vitality possessed

by the patient. The doctor, when

away, said he would not return to the house again until 10 o'clock. STRONGER THIS MORNING. Dr. Johnston, after his morning call at 11 o'clock, said: "I found Mr. Blaine better today. He is fresher and stronger than yesterday."

Dr. Johnston, after his morning call at 11 excess garbage with the understanding that he should receive additional compensation; that for the month of July he did He is fresher and stronger than yesterday."
Dr. Johnston said then that he would make
his usual afternoon visit at 2 o'clock. Vice President Morton was at the Blaine residence this morning for a short while. AT 3 O'CLOCK TODAY.

At 3 o'clock this afternoon the report was that Mr. Blaine was sleeping and appeared to be a little better.

THE SILVER QUESTION. Henry Villard is Making an Investigation of the Situation.

making an investigation of the silver absolute suspension of silver purchase if possible. He had an interview with Speaker Crisp, Mr. McMillin, Mr. Springer and a number of other of the leading members of the House.

Speaking with a representative of The Section 1985. Speaking with a representative of THE STAR this afternoon he said that he had not yet discovered just what the situation as to the silver suspension was and that what he was trying to do was to fine out. What he wanted to see was the unconditional suspension of the silver pur-

With relation to the talk of his going into Mr. Cleveland's cabinet he said that he would not be a member of the cabinet, that his business interests precluded that.

WHAT MR. COCKRAN SAYS. Cleveland, has returned and he also is interested in the silver situation. He has very little to say about his visit to Mr. Cleveland, but says that he thinks the democratic party is in a very harmonious condition and that there is no reason for any uneasiness on the part of those who seem to be looking for trouble. He says he is not going to be Attor-ney General and that he thinks that right where he is is a good enough place for him.

The presence of Mr. Villard and the return of been made for the purpose of consulting with brought that question more prominently to the front in the gossip at the Capitol today than

any other question, and given it a greater in-terest than heretofore.

The matter is being talked up one side and down the other, and it is evident that every-thing possible is to be done to secure the re-peal of the Sherman law on the best terms pos-sible. Mr. Cleveland is more concerned about that than anything else, and is very active in his efforts to secure some action.

The White House Quarantine. Little Marthena Harrison continues to improve and danger from infection is believed to have been removed from the White House. In conformity with the law, however, the signs containing the information that scarlet fever of \$1,000. His contract for the removal of gar-In conformity with the law, however, the signs exists within will not be removed from the private entrances to the mansion until January 26, a month from the day they were placed there.

Mr. Evans Feels At Home. "It's like coming home again," said newly road over land belonging to the United Ssates, and to bring the water supply from the reservoir at the southwest corner of the distributing reservoir, in order to furnish an electrical and water supply to the Girl's Reform School. H. bage service in the District of Colum-I was on the committee of post offices and post roads, so I am familiar with my new duties and the workings of the department. I find my surroundings most pleasant, and having a large personal acquaintance in the department things are not very strange to me." An Incidental Tariff Discussion There was an outcropping of the tariff this

morning during a hearing before the committee on ways and means on the bill which contemplates governmental assistance to the Chicago and St. Louis electric railway. The company was represented by Dr. Wellington Adams, who urged the passage of a bill admitting the entry, free of duty, of their electrical apparatus and steel rails. He advanced the argument that this should be done to foster a pioneer enterprise, and cited instances where Congress had done so in the past. This led Mr. Turner, democrat, to remark that this might then be considered as an application of the idea of building up new industries on principles of free trade. Mr. dustries on principles of free trade. Mr. Reed, who came in late, when told what the searing was about, only observed that if cor-corations did not desire to buy their material this country they ought not to build here. Quarantine Improvements. this afternoon and the supposed to be dying man was removed to the hospital in the patrol

House today a communication requesting the following appropriations for quarantine stations: Detention barracks and adjunct buildings at the South Atlantic quarantine station, \$10,000; detention barracks and adjunct buildings at the gulf quarantine station, \$10,000, and for bath houses and disinfecting apparatus at Camp Low, Sandy Hook, \$8,000.

These improvements were recommended by Surgeon General Wyman of the Marine Hospital service.

THE GARBAGE INQUIRY.

Its Report.

A COMPLETE REORGANIZATION OF THE SERVICE WANTED-THE COLLECTION SAID TO BE BETTER NOW THAN FORMERLY-NO UNFAIR MEANS USED IN EFFECTING DR. TOWNSHEND'S RE-

At the meeting of the Senate District committee held yesterday morning Senator Hansbrough, as chairman of the subcommittee composed of Senators Higgins and Harris, bethe District. The full committee unanimously adopted the report of the subcommittee and Senator Hansbrough was ordered to make the report.

The report is as follows: Your committee made a very full and exhaustive inquiry covering the collection of garbage in the District of Columbia. Numerous witnesses were examined and the evidence taken covers 154 printed pages. The subcommittee recovered December 8. The subcommittee reconvened December 8, and heard the testimony of the health officers as to the efficiency of the garbage servvice during the recess of Congress, cov-ering the "heated term" of 1892, when the necessity for vigorous and effective work on the part of the health department was the greatest. This, with all other testimony, copies greatest. This, with all other testimony, copies of contracts and documents bearing upon the subject, will be found in the printed proceedings of the subcommittee's meetings.

In response to that portion of the Senate resolution as to "why a deficiency of \$28,930 existed in the appropriation for that object for the current fiscal year," your committee find, upon the evidence adduced, that the summer season of 1891 was wondrously prolific of fruit and vegetables, and as a consequence the accumulation of

wondrously prolific of fruit and vegetables, and as a consequence the accumulation of garbage was very great, the increase being in many places about the city double the amount in former years. At the very height of this unusual situation in the city's sanitary condition Mr. J. F. Draney (now deceased), who had been the garbage contractor almost continuously for fifteen years, abandoned his contract, claiming that he had a legal right so to do under the terms of the contract.

This was on September 1, 1891, one month This was on September 1, 1891, one month after Dr. Hammett had been appointed to the position of health officer of the District to succeed Dr. Townshend, resigned.

MR. DRANEY'S CONTRACT. reasons given by Mr. Draney for the abandonment of his contract are set forth very fully in his testimony, and do not materially disagree with the statements made on this subject in the testimony of Dr. C. M. Hammett, the health officer, and Commissioners Ross and Douglass, all of whom were examined at length by the committee.

The committee find that Contractor Draney

complied with the order of the Commissioners receive additional compensation, but for the month of August no additional compensation was allowed him, although, under orders from the Commissioners, he put in use additional teams. Whereupon he abandoned his contract, in the very midst of the season, when garbage accumulations are season, when garbage accumulations are most abundant and when the complaints received by the Commissioners that garbage was not being removed were most numerous; and in this situation the health officer was called upon to take personal supervision of garbage removal.

In masel in readiness for orders to the Castine as executive officer; Passed Asst. Surg. H. N. T. Harris, to temporary duty in the bureau of medicine and surgery; Ensign W. G. Miller, from the fish commission steamer Albatross and ordered to the nautical school ship Enterprise; Passed Asst. Engineer Wm., Rowbotham, from the receiving the castine as season, when garbage accumulations are most abundant and when the com-plaints received by the Commissioners

vision of garbage removal.

Naturally Dr. Hammett knew but very little Following directly after the visit of Mr. about the mechanical management of the Quincy as an envoy from Mr. Cleveland Mr. garbage service. This was doubtless true of his predecessors and will be true of his successors. In his dilemma, with the fear before him of the consequences of demuch that was unsuitable, at prices that, in the opinion of your committee, were extravagant. Complaints grew more numerous and the local press began to agitate the question and criticise the District government. THE REMOVAL OF DR. TOWNSHEND.

> partment by the Commissioners, and the means to accomplish such changes, your committee find that two of the Commissioners—Mesers. Douglass and Hine—be-came dissatisfied with the official conduct of Health Officer Townshend, on account of the fact, as stated in Commissioner Douglass' testimony, that Dr. Townshend permitted one Foliey to act both as inspector and contractor. Dr. Townshend's resignation was accordingly demanded by a resolution of Commissioners dated June 19. Hammett's appointment followed on 15. Your committee fail to find

As to the changes made in the health de-

July 15. Your committee fail to find that any "unusual or unfair means" were used to accomplish this change. The Commissioners had a perfect right to remove the health officer and appoint a successor if, in their opinion, the service demanded it.

With respect to that portion of the Senate resolution relating to the efficiency of the present garbage service, and as to the present contractor being employed in the War Department, &c., your committee find as follows: Generally the service is an improvement over the service of former years, yet there is ample opportunity for still greater is ample opportunity for still greater improvements. While there are many complaints of failure to remove garbage, greater care is being exercised and better methods of handling are in vogue. The new inodorous steel carts employed by the present contractor are a decided improvement over the

old open barrel service.

Benjamin W. Clark, the present contractor. is, or was on April 2, 1892, the date of testimony before the subcommittee, embage is for five years from July 1, 1892, the contract price being \$24,400 per annum. We do not find that Mr. Clark has sublet the con-

A COMPLETE REORGANIZATION WANTED. In conclusion, your committee volunteers the opinion that at no time has the garbia been satisfactorily performed; nor has it the large appropriations voted for that pur-pose. The system of organization is inadpose. The system of organization is inadequate. The responsible head of the garbage service should be a live, energetic business man. The removal of garbage does not necessarily require the expert services of a physician. It is enough for the health officer to study and determine the scienfic application of sanitary measures. A complete reorganization of the garbage service upon practical business lines would seem to be necessary, and the change cannot come too soon if the consecannot come too soon if the conse-quences of a threatened plague are to be avoided. The city should be divided in inspectors' districts, and competent and ener-getic men appointed as inspectors. The Dis-trict Coumissioners should assume the direct responsibility for the conduct of these in-spectors.

HE TOOK MORPHINE.

It Was With Suicidal Intent, but He May

Recover. W. J. Hughes, a painter, who resided at No 33 Virginia avenue southwest, attempted suicide this morning. He was found in an unconscious condition at his home. When taken to Providence Hospital it was found that he had taken morphine. The po-lice were notified of the affair about 1 o'clock

wagon.

He was unconscious when he reached the hospital and his condition was critical. The physicians, however, thought that he might recover, although the chances were decidedly against

Death of Mr. Wm. R. Handy Mr. Wm. R. Handy, a son-in-law of Ser John T. Mitchell of Oregon, died today at his residence, 1925 G street, after a lingering illness. His funeral will take place Monday morning next at 11 o'clock, the interment to be at Oak Hill cemetery.

Mr. Wm. R. Handy was a clerk in the office of the Secretary of the navy. He leaves a wife and two children.

at all.

Dupuy De Lome, Spanish minister to the

United States, has been appointed commis-

sioner general of Spain to the world's Colum-bian exposition. The government appropri-ation of \$200,000 has been placed at his diposal for the erection of a building and the display of the Spanish exhibit. Senor Lome will leave here in a few days for Chicago to make the necessary arrangements for the exhibit. THE PRESIDENT'S YACHT. Lieut, B. H. Buckingham is booked for the command of the dispatch boat Dolphin, known unofficially as the President's yacht. He is executive officer

of the vessel at present and will relieve Com-mander Brownson, who takes charge of the De-troit at Baltimore. Licut. Buckingham was for some years naval attache to Rome and Paris,

and previous to his present duty was naval aid

to Secretary Tracy. NAVAL ORDERS. - The following naval orders have been issued: Lieut. Commander W. T. Burwell, to hold himself in readiness to command the Pinta; Lieut, C. F. Norton, to hold himself in readiness for orders to the Bancroft as executive officer; Lieut. G. S. Prime, to hold himself in readiness for orders to the Castine a from the receiving ship Independence and granted three months leave

Army Orders. The order directing Second Lieut. William II.

Hay, third cavalry, to report to Mai. Samuel M. Whitside, seventh cavalry, president of the examining board at Fort Riley, Kan., for examination for promotion, is revoked. The board of officers convened at Fort Biley,

Kan., for the examination of officers for promotion is dissolved.

The detail of First Lieut, Leonard A. Lovering, fourth infantry, as Indian agent at the Sisseton and Wahpeton agency, South Dakota,

The extension of leave of absence granted Pirst Lieut. Samuel R. Duniop, assistant sur-geon, is still further extended to include January 31.
The resignation of First Lieut. Samuel R. Dunlop, assistant surgeon, has been accepted

The leave of absence on account of sickness granted Second Lieut. Frank M. Caldwell third cavalry, is extended one month.

An Army Officer's Experience. Capt. John B. Eaton, third artillery, bas had an experience such as falls to the lot of few officers of the army. He is now in his sixtythird year and reached the rank and grade of captain only a few months ago, when he was transferred from the line to the quartermaster's department, with the rank and pay of captain. In the course of a few months he will be placed on the retired list of the army on account of age, in accordance with the law making exty-four years the extreme limit for service on the active list of the army. In view of Capt Faton's advanced age and early retirement and his onfamiliarity with the duties of officers of the quartermaster's department, the President has granted his application to be allowed to round out his active service in the line in the perform-ance of duties with which he is familiar insteal of assigning him to work for a few months of a character strange and altogether foreign to his experience. Capt. Atkinson of the cavalry has been assigned to temporary duty in the staff department. He is a younger man than Capt. Eaton and has had previous experience as a quartermaster. Capt. Eaton is now on duty at the Washington barracks.

Minister Guzman has been informed that the government of Nicaragua has deposited in Lendon the amount of the interest on its debt for the last half year, and due this month, which is noticeable in view of the general depression in all Spanish America at the present time. In addition to keeping up its credit abroad the administration of President Sacasa has entered upon various impor-tant internal improvements and is pushing vigorously the construction of lines of communication, particularly the Momotambe and Sebaco railway, which runs through departments rich in gold and other precious ore and valuable timber and which have a soti and

climate peculiarly adapted to coffee cultivation Civil Service Violations Reported. The civil service commission made public to day two cases of alleged political essessment, both of which have been brought to the attention of the Attorney General and the Post master General. One refers to the action of the Allegany County Postmasters' Association in New York, which sent circularto the various employes in that county during the last campaign, soliciting money for the republican campaign fund. The other case refers to an attempt made in Indianapolis after the campaign was over by a letter carrier, acting on behalf of the local democratic county committee, to collect subscriptions from other democratic carriers in the office to make up a shortage in the accounts of this local demo-

cratic committee. One Confirmation The Senate yesterday confirmed the nomination of Geo. W. Bartch to be associate justice of the supreme court of the territory of Utah in the place of Judge Anderson, whose resigna-tion was demanded by the Department of Jus-

A Good Musical Service. At the vesper service at the Church of Our Father tomorrow evening the following num-bers will be rendered: Quartet, "I'm a Pilgrim, I'm a Stranger:" soprano solo, "Jesus, Lover of My Soul," Tours; duet, soprano and bass, "Forever With the Lord," Gounod; quartet,
"The King of Love My Shepherd Is," Shelley;
contraito solo, "Nearer, My God, to Thee,"
Bernard.
